

FALCON S1 BODY CAMERA

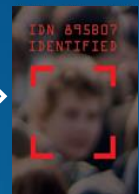

When Every Second Counts, Nothing Captures Suspects Faster!

IDN 895807
IDENTIFIED

With increasing demand for swift detection of suspects in mass crowd events, the **Falcon S1** Body-Worn Camera, paired with facial recognition software, offers a complete security alert solution.

Captured video is offloaded via secure transmission to the most advanced Evidence Management software, designed to manage digital evidence in one location.

Our user-friendly interface provides a complete overview of video, photos, audio.

Falcon connects to Android mobile phones with Oosto app, to enable face recognition
